# Making money with IFA Online

With IFA...Now YOU Can! The emphasis in the IFA Business Opportunity is in the transformation of people's lives through business skills development. This way an individual is afforded an opportunity to supplement their basic salary, or in the case of the unemployed, generate income through network marketing. To date over 2 million people have signed-up as IFAs and among these there are countless testimonials of the financial freedom that has followed as a result of consistent hard work, a positive outlook and a genuine thirst for success. We believe that we have only touched the tip of the iceberg and therefore we continue with our aggressive strategy to change the lives of many more South Africans.

## The Benefits for you

**1. Unlimited earning potential**

Yes, that's right, you determine your own pay cheque.

**2. Work from Home**

As an Independent Field Advertiser you determine how much you earn, depending on the amount of work you put in. IFAs earn in the following ways: through IFA earnings, Clubs and New Bonuses.:

**IFA Earnings:** Earnings are paid on a monthly basis. You become an IFA Earner when you introduce five qualifying Key Appointments who all pay premiums in the same commission period. You will receive earnings from each person in your network that pays their premiums. Earnings are calculated on different levels and the percentage that you earn differs for every level that you reach (up to 6 levels). In order to become an IFA Earner your own IFA business fee must be paid.

**IFA Clubs:** With IFA you can enjoy IFA Club earnings throughout the year, based on the number of IFAs in your network (level 1 - 6) who pay their premiums and business fees. Clubs are paid in addition to earnings – these are rewards that IFAs receive for each milestone they achieve when building their businesses. Clubs are earned from Club 15 to Platinum Club 20 000.
